

SAFETY OTHER

ONE THING OR ANOTHER.

WE HAVE THOUGHT ABOUT ALL THOSE OTHER SAFETY THINGS SO YOU DON'T HAVE TO. AVOID CONSIDERING A SPILL KIT AFTER THE SPILL AND REMEMBER TO BUY A FLASHLIGHT AND BATTERIES BEFORE YOUR NEXT POWER OUTAGE.

SAFETY OTHER

ANTI-FATIGUE & ANTI-SLIP MATTING

INCREASE PRODUCTIVITY AND COMFORT WITH ANTI-FATIGUE AND ANTI-SLIP MATTING

Anti-fatigue mats are designed to reduce fatigue that is caused by standing for long periods on hard surfaces (e.g., cement floors). Anti-fatigue mats absorb the shock due to walking and this cushioning effect reduces foot fatigue; they are often used to decrease foot weariness for workers who stand in one position for long periods. Anti-slip matting is also useful in increasing foot comfort and safety.

The use of matting requires caution because mats can lead to tripping and falling accidents when installed improperly. Fatigue-reducing mats can be made of various materials including rubber, carpeting materials, vinyl, and wood. Contact your Treen Health and Safety Representative today to discuss a customized matting solution for your work environment.

TREEN RETAIL

Since day one protecting the Canadian worker has been our number one goal. We have made a commitment to ensure that our valued customers receive quality and regulatory approved products at competitive prices, backed by excellent service. As a part of this commitment we have developed a comprehensive and competitive ‘head to toe’ retail program. We can provide you with all your retail safety products from key vendors plus our Work Safe brand offers a great value and great quality retail line. Many of the products displayed in this catalogue are available in retail packaging and we also have a retail-specific product list. If you are interested in our retail program please contact your Treen Health and Safety Consultant for more information.
